

# Mountain Wildflower Mix

Our Mountain Wildflower Mix is designed to do exceptionally well in the mountain areas of the Pacific Northwest. This mix consists of 18 species: 40% annuals and 60% biennials or perennials which means the mix will give color the first year and prosper for many following years. Many of these varieties do very well in higher elevations with limited moisture. This mix will reach a height of approximately 36 - 48 inches.

| <b>Botanical Name</b>    | <b>Common Name</b>        | <b>%</b> |
|--------------------------|---------------------------|----------|
| Linum lewisii            | Blue Flax                 | 13       |
| Gaillardia aristata      | Blanketflower             | 10       |
| Cheiranthus allionii     | Siberian Wallflower       | 9        |
| Echinacea purpurea       | Purple Coneflower         | 9        |
| Dianthus barbatus        | Sweet William             | 8        |
| Eschscholzia californica | California Poppy - Orange | 6        |
| Linum rubrum             | Scarlet Flax              | 6        |

None of the following kinds exceed 5% of the total mixture by weight:

|                          |                            |
|--------------------------|----------------------------|
| Dimorphotheca aurantiaca | African Daisy              |
| Rudbeckia hirta          | Black-Eyed Susan           |
| Gaillardia pulchella     | Indian Blanket             |
| Silene armeria           | Catchfly                   |
| Papavar rhoeas           | Corn Poppy - Shirley Poppy |
| Clarkia amoena           | Godetia, Dwarf             |
| Delphinium ajacis        | Rocket Larkspur            |
| Penstemon strictus       | Rocky Mountain Penstemon   |
| Chrysanthemum maximum    | Shasta Daisy               |
| Lobularia maritima       | Sweet Alyssum              |
| Coreopsis tinctoria      | Plains Coreopsis           |

**Seeding Rate: 4 - 7 Lb/ Acre (1 Lb. per 7,000 sq. ft.)**  
If Hydroseeding, seeding rate should be doubled.  
Approximately 748,500 seeds per pound.
