

Coastal Revegetation Mix

This mix was developed for use in the South Coast regions of BC and Vancouver Island areas. It is ideal for vegetation establishment where slope stabilization and strong erosion control is needed due to high annual precipitation. The mix has a wide diversity of species which makes it adaptable to many different sites and is our most popular reclamation mix.

This mix contains:

%Seed Count	%Weight	
31.0%	22.5%	Creeping Red Fescue
11.5%	20.0%	Perennial Ryegrass

Premier Pacific Seeds Ltd. reserves the right to change seed mixes at any time. Premier Pacific Seeds Ltd. ("Premier") warrants that the seeds in this container (the "Seeds") are of the type described on the container within generally accepted industry tolerances. This warranty is in lieu of all other representations or warranties expressed or implied, with respect to the Seeds or crops grown from them, including, but not limited to, any warranty as to variety, description, quality, merchantability or productiveness. The maximum liability of Premier under this warranty is limited to the purchase price of the Seeds. If this warranty is not acceptable to the buyer, the buyer must not plant the Seeds and may return them to Premier in good condition in this container for a full refund of the purchase price.
