

## TECH SHEET

FINE LEAF TEXTURE

COLD TOLERANT

LOW MAINTENANCE

SHADE TOLERANT

LESS FERTILIZER

### QUICK FACTS

**QUATRO** sheep fescue is an extremely fine bladed bunch-grass that produces an exceptionally dense sward and a distinct deep dark colored turf. It provides durable, attractive turf under a range of mowing heights, soil conditions and growing environments. Quatro establishes rapidly from seed, yet is one of the slowest growing grasses commercially available. Quatro exhibits drought and arid climate heat tolerance and has a unique ability to remain green under drought stress-induced dormancy.

### ADAPTATION

**QUATRO** was bred specifically for improved shade tolerance, low mowing heights and reduced maintenance conditions. It is best adapted in northern regions of the temperate cool season zones where heat and humidity related diseases are minimal. It can be successfully utilized in full sun or shade, in parks, playgrounds, golf course tees, fairways and roughs. It is compatible in turfgrass mixtures containing Kentucky bluegrass, per. ryegrass, col. bentgrass & other fine fescues.

Sheep Fescue

- FINE TEXTURE
- SLOW GROWTH
- DARK GREEN COLOR
- DISEASE RESISTANT
- GOOD SHADE TOLERANCE

### TRIAL DATA

1995 NTEP Fine Fescue Trial

#### Genetic Color

Tested at 23 locations  
in the US & Canada

	MEAN
<b>QUATRO</b>	<b>7.0</b>
DISCOVERY	6.7
BRIGADE	6.6
SHADEMASTER	6.7
FLYER II	6.6
BANNER II	6.1
JAMESTOWN II	5.8

Scale 1-9; 9=ideal

### SEEDING RATE

#### New Lawn:

4-5 lbs per 1,000 sq ft
