

100% Native Roadside Riparian Mix

The 100% Native Roadside Riparian mix is used by many South Coast municipalities for land and soil disturbances where quick establishment and tolerance to high soil moisture are required. The species contained in this mix are native to coastal British Columbia.

100% Native Roadside Riparian Mix

Species	% by weight	Seeds/ lb	% by seed count
Agrostis exarata, Spike Bentgrass	1	6,000,000	21.30
Bromus sitchensis, Alaska (Sitka) Brome	40	100,000	14.20
Deschampsia cespitosa, Tufted Hairgrass	3	2,100,000	22.36
Festuca rubra, Native Red Fescue	15	600,000	31.95
Hordeum brachyantherum, Meadow Barley	41	70,000	10.19

Benefits:

- Mitigates invasive plant growth in disturbed soils
- Provides erosion and sediment control
- Tolerance to high soil moisture and seasonal flooding
- Some tolerance to salt water marshes and coastal environments
- Medium to long lived

Seeding Rate: 40 -50 kg / Ha

Premier Pacific Seeds Ltd.
203-19315 96 Avenue
Surrey, BC V4N 4C4

Premier Pacific Seeds Ltd. ("Premier") warrants that the seeds in this container (the "Seeds") are of the type described on the container within generally accepted industry tolerances. This warranty is in lieu of all other representations or warranties expressed or implied, with respect to the Seeds or crops grown from them, including, but not limited to, any warranty as to variety, description, quality, merchantability or productiveness. The maximum liability of Premier under this warranty is limited to the purchase price of the Seeds. If this warranty is not acceptable to the buyer, the buyer must not plant the Seeds and may return them to Premier in good condition in this container for a full refund of the purchase price.
