

All Annual Wildflower Mix

Our All Annual Wildflower Mix is made up of 23 species that are designed to provide wildflowers for one year. It is ideal for overseeding mixed beds where the annuals have not re-seeded themselves or to rejuvenate a bed that has gone "flat". The seeds are all annuals or perennials that act like annuals; in other words they will bloom the first year. In some conditions, they may re-seed themselves very well if the bed is to be carried over another year.

These species range in height of approximately 6-35 inches.
