

Dryland Wildflower Mix

Our Dryland Wildflower Mixture is made up of 25 individual species and designed to flourish in drier climates or areas that do not get moisture on a regular basis. The mix is made up of 49% annuals and 51% biennials/perennials to give a wide variety of colorful flowers for the first season as well as following years. The wildflower bed will reach a height of approximately 36 - 48 inches.
